DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in PCT/NL99/00222 on April 16, 1999 which claims priority of Netherlands Patent Application No. 1008934 filed on April 20, 1998. It is noted, however, that applicant has not filed a certified copy of the application as required by 35 U.S.C. 119(b).

Inventorship

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Specification

3. Applicant's assistance is requested to correct any errors that may be noticed in the application.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claim 1 provides for the use of a method to calculate the amount of light passing through an integrated optical light guide; but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 2-12 are rejected as being dependent on rejected claims and therefore contain the same deficiencies as the claims they are dependent upon.

Please note that the Examiner does not understand what applicant is trying to claim in claim 1 and thus does not know what to search for, none of the claims are examined during this Office Action.
